25X1A 4. [ ] GLC) Accompanied Messrs. Houston, [ ]  
25X1A Osborn, [ ] to a meeting with the Special  
25X1A Subcommittee on Intelligence of House Armed Services Committee. The  
Subcommittee was interested in getting testimony about Agency action taken  
on letters received from James McCord and to get testimony from [ ]  
about the preparation of General Walters' various memoranda which were  
previously submitted to the Subcommittee. See Memorandum for the Record.

25X1 5. [ ] GLC) During this morning's hearing I was called  
by Jim Woolsey, Senate Armed Services Committee staff. He said they  
were preparing to send to the prosecuting attorney (Silbert) and Senator  
Ervin's Watergate Committee copies of the McCord letters. Woolsey wanted  
to know if these letters were considered classified. If so, he wished to  
include an appropriate warning in his transmittal letters. After checking  
with Mr. Osborn, D/S, I told Woolsey the letters were not classified. I added,  
however, that as I thought he knew, the documents were sensitive to the  
extent that they might be material evidence in future legal proceedings.  
Woolsey said he was aware of this aspect of the letters.

25X1 6. [ ] - GLC) Met with Dorothy Fosdick and Richard Perle,  
Senator Jackson's Permanent Subcommittee on Investigations staff. Perle  
asked me for any information we could provide him on [ ]  
25X1C who is a member of the Institute of World Economics and International  
25X1C Relations Academy of Science of the USSR. Perle said [ ] is a Russian  
25X1C Jew now living in Virginia. He has a meeting with [ ] at 3:00 p.m.  
tomorrow afternoon and is interested in anything we can tell him about his  
bona fides.

25X1C He also asked if we could check the name of [ ] a  
25X1C member of the Arbatov Institute. Perle said he met [ ] at a talk  
he (Perle) gave recently and was interested in any information we had on  
him.

Perle then said he would like a rundown on several items. See  
Memorandum for Record.

Dickie:

Here are our comments on the [ ]  
and [ ] paper, a translation of which I  
have sent you previously. As you can see,  
we feel it adds nothing to our present  
knowledge and is a rather poor job of analysis.
